### *WOUND SELF MANAGEMENT PROGRAM*

## *YOUR PASSPORT TO HEALTH*

Your Health Passport is for you and your family and/or caregiver. It contains information that is important to you, your condition and treatments as you begin managing your wound. Inside you will find forms and tables that will become a daily log as you move through caring for your wound. Make sure you bring this passport with you to all your medical appointments/procedures.

# HELPING YOU HEAL

---

You have been assessed as eligible for acceptance into the Home and Community Care Support Services North East client self-management program – *Helping You Heal*.

The aim of this program is to improve the health and quality of life for people living with wounds.

Your care will be managed by YOU with the help of our care team.

## ABOUT YOUR HEALTH PASSPORT

---

The central goal of the *Helping You Heal* Initiative is to help you live as actively, healthy and independently as possible within in your community.

This passport has been created to help you keep track of medical appointments, contact information, medication, goals, advice, and questions.

You will use this passport to keep clear, up-to-date records of treatment and support available throughout managing your wound.

Keep updating your passport as you continue to make progress in your recovery by setting yourself new goals to work towards, and recording all events throughout your care.

Your care team will also support you in achieving your goals with advice, information, and guidance.

Be sure to take your passport to clinic appointments and to keep the information up to date.

# MY APPOINTMENTS

---

While managing your wound, you may need to attend medical appointments. You will need to see your family doctor, nursing clinic & other members of your health care team. It is important that you attend these appointments as the team will help your recovery. This section allows you to keep all your appointments in one place. This will also allow your healthcare team to know who you are seeing & when.
